

JECLIN

Cleanroom & vacuum fasteners

Jeclin®
CLEANROOM & VACUUM FASTENERS

In order to create and maintain optimal vacuum in a controlled environment, and also to prevent virtual leaks and potential contamination, it is important to use the correct high-quality vacuum fasteners. To meet these stringent quality standards, the Jeclin brand has been developed. Jeclin consists of a wide range of fasteners for vacuum and cleanroom applications. These products can be vital in the semi-conductor (microchip), aerospace and solar power system industries, among others.

THE JECLIN ASSORTMENT

	SOCKET HEAD SCREWS
	SET SCREWS
	HEX SCREWS AND BOLTS
	HEX NUTS
	PARALLEL PINS
	WASHERS PLAIN

FEATURES

- Large range of vented products available from stock
- RVS A4-80
- Inconel 718
- Titanium (grade 2 and 5)
- Available in diverse surface treatments:
 - Electro polishing
 - Kolsterising
 - Cleanroom packed
 - Rerolled thread
